

The new Müller drum lifter MOBILO

Ideal for transporting and lifting your drums – regardless of their material: plastic, fiber, mild steel or ‘genuine Müller drums’. The operator has a clear view of the drum, unobstructed by a mast, making it child’s play to feed a production or filling line. All movements are actuated by the onboard hydraulics: picking up, lifting, lowering and inverting.

Various types are available to suit your needs: load capacities from 150 kg up to 350 kg.

If requested, a motorized chassis can give additional mobility.

Technical Data (Standard version)			
Type	M 150	M 250	M 350
Load capacity	150 kg	250 kg	350 kg
Tare weight	600 kg	670 kg	ca. 750 kg*
Speeds			
Lifting/lowering	0.15m/sec.	0.15m/sec.	0.15m/sec.
Inverting 180°	14 sec	14 sec	14 sec
Dimensions			
H	3400 mm	3400 mm	3400 mm
h2	1780 mm	1780 mm	1780 mm
L	1850 mm	1850 mm	1850 mm
A	620 mm	620 mm	620 mm
b	800 mm	800 mm	800 mm
B	920 mm	920 mm	920 mm
h	200 mm	200 mm	200 mm
* M 350 always with motorized chassis			

Details:

- For drum diameters 315 mm – 600 mm
- Simple operation
- Accurate positioning
- Pushed manually or with motorized chassis
- Highly stable
- Easy to maintain
- Lifting height 3400 mm (standard version)
- Reach 620 mm (standard version)
- Load capacity 150, 250 or 350 kg
- Entirely in stainless steel AISI 304
- Easy to clean thanks to smooth and sloping surfaces
- GMP compliant
- CE Marking

We look forward to your inquiry.
